MEMORANDUM FOR: Chief, Budget Division, Office of
the Comptroller

SUBJECT: Reimbursement for Services - McLean
Volunteer Fire Department

25X1 1. With reference to [redacted] memorandum
for the record of 5 February 1963, proposing language for insertion
in the Agency's forthcoming budget submission to Congress, the
language suggested calls for a payment to the McLean Volunteer
Fire Department. Mr. [redacted] Chief, Logistics
Services Division, Office of Logistics, believes that since more
than one local fire department is involved, it might be appropriate
for the language to be in broader terms, permitting payment to the
county government. To this end perhaps the language could be:

"These estimates include \$5,000 for payment to
the government of Fairfax County, the McLean Volunteer
Fire Department and other volunteer fire departments,
or to any of these, for fire protection services at the
Central Intelligence Agency Headquarters."

2. It is believed also that a contract with the fire department
would not be in order since volunteer services are the essence of
the functions of a volunteer fire department. This point of course
will not come up until the legislation is enacted, in any event.

[redacted]
